EXAMINER'S AMENDMENT

The application has been amended as follows:

Claims 1-534,536-768 have been cancelled.

1. The following is an examiner's statement of reasons for allowance:

The Terminal Disclaimers submitted 9-14-06 have been approved.

The IDSs have been reviewed and initialed. Due to the number of IDSs submitted, all the relevant copending applications will receive the same copied IDS from SN 10/723,734 with the Serial Number changed to correspond to that application. All copending applications appear to have the identical IDSs and references cited.

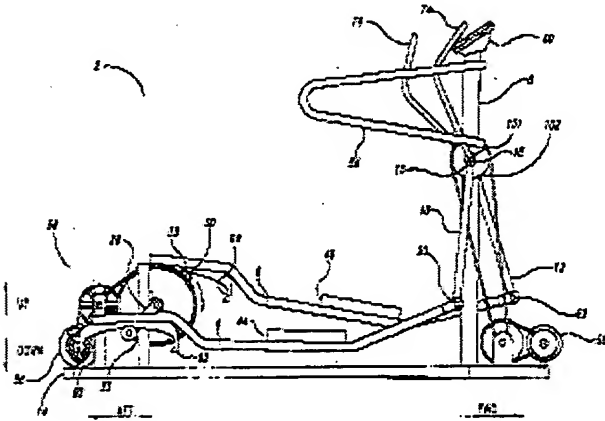

The prior art, patents and provisional applications, fails to show or teach applicant's claimed elliptical type exercise device having a cam system which can vary the stride substantially instantaneously.

As to claim 535, the ^{Lull}₁ and Ohrt show elliptical exercise devices having cam systems but although their cam system has both a cam surface and a cam follower, the cam systems don't couple the movable members to the foot members.

As to claim 769, the Lull and Ohrt spacing between the foot pads and the cam system cannot be modified in the manner of claim 769 lines 10-15. As to claim 770, Lull and Ohrt don't teach movable members connected to the frame and vertically adjustable during exercise usage.

Art Unit: 3764

As to claim 771, the Lull and Ohrt movable members are rollably and not pivotally coupled to the crank system.

Eschenbach discloses Elliptical exercise devices having ramped surfaces and means to adjust the elliptical path during exercise, but the stride variation is not considered to occur substantially instantaneously.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
